COMPETITIVE PRICES. SAFETY FIRST. ALWAYS RELIABLE.

JS Welding Services produces quality steelwork and structural projects with an impeccable safety record.

We are a professional welding company providing preventative maintenance, workshop fabrication and installation services across Queensland and beyond.

We believe in:

- Top quality products at competitive prices
- A consistently safe environment for our team and the people we work with
- A continuity of support to local and regional industry

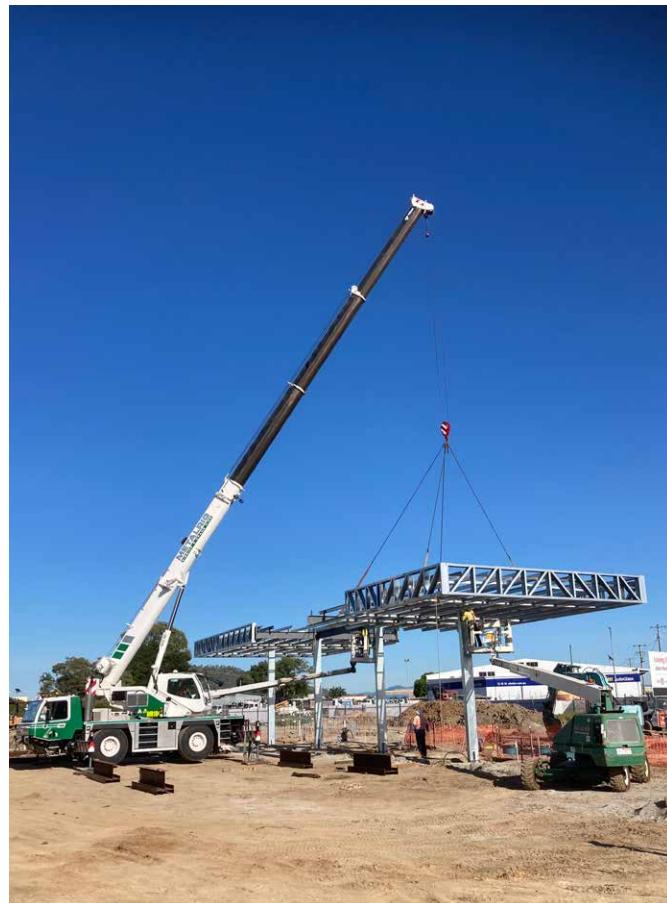

OUR CAPABILITIES

JS Welding Services specialises in supplying, fabricating and installing structural steel across a range of buildings including schools, warehouses, industrial sheds and petrol stations. We are also heavily involved in civil works, ports and the mining industry.

Our current weekly output is approximately 40 tonne. As our workforce grows, so does our capacity to produce more quality steelwork. We are Townsville's leading producer of structural steel and the go-to for commercial and industrial structural steel projects. Using all local suppliers, we're very proud to make such a significant contribution to the growth of the North Queensland economy.

OUR SERVICES

- Structural steel fabrication and erection metalwork items, including handrails, balustrades, bollards, louvers, screens etc
- Labour hire
- Mobile welding
- Drafting, engineering and design

Stage 2 included an 80m long walkway and curved bridge, also made up of brass aluminium soffits and timber battens.</p>

Awards

- Winner 2017 Regional Queensland Master Builders Award for Tourism and Leisure Facilities up to \$10 Million.

Our People, Resources and Approach to Business

JS WELDING
SERVICES

OUR PEOPLE

JS Welding Services has evolved from a one-man mobile boilermaking service into a professional welding company working with some of the top tier construction companies in Australia.

Founded and managed by Jason Pinker, *JS Welding Services* now has a growing team of 38 dedicated and skilled staff and a reliable network of contractors in the electrical, civil, building and construction industries.

Jason Pinker, Director

Jason founded *JS Welding Services* in 2010. He is a qualified boilermaker with over 30 years experience in the mining and construction industries.

Experienced in pipe welding, heavy earth moving repairs and maintenance, heavy fabrication and industrial construction, Jason worked in a variety of different environments and locations throughout the world before settling in Townsville, where he has become a passionate contributor to the region's growth.

Tull James, Project Manager

Tull has 30 years construction industry experience, working with various engineering and fabrication companies. He has delivered projects across a broad range of market sectors including commercial construction, government sectors, (rail, ports, schools, and hospitals), major defence contracts and the mining industry.

Tull plays an integral role at *JS Welding Services*, taking responsibility for project initiation, execution and delivery, all in line with client objectives. He has extensive knowledge of fabrication processes, Australian Standards, QA and safety legislation.

Our People, Resources and Approach to Business

JS WELDING
SERVICES

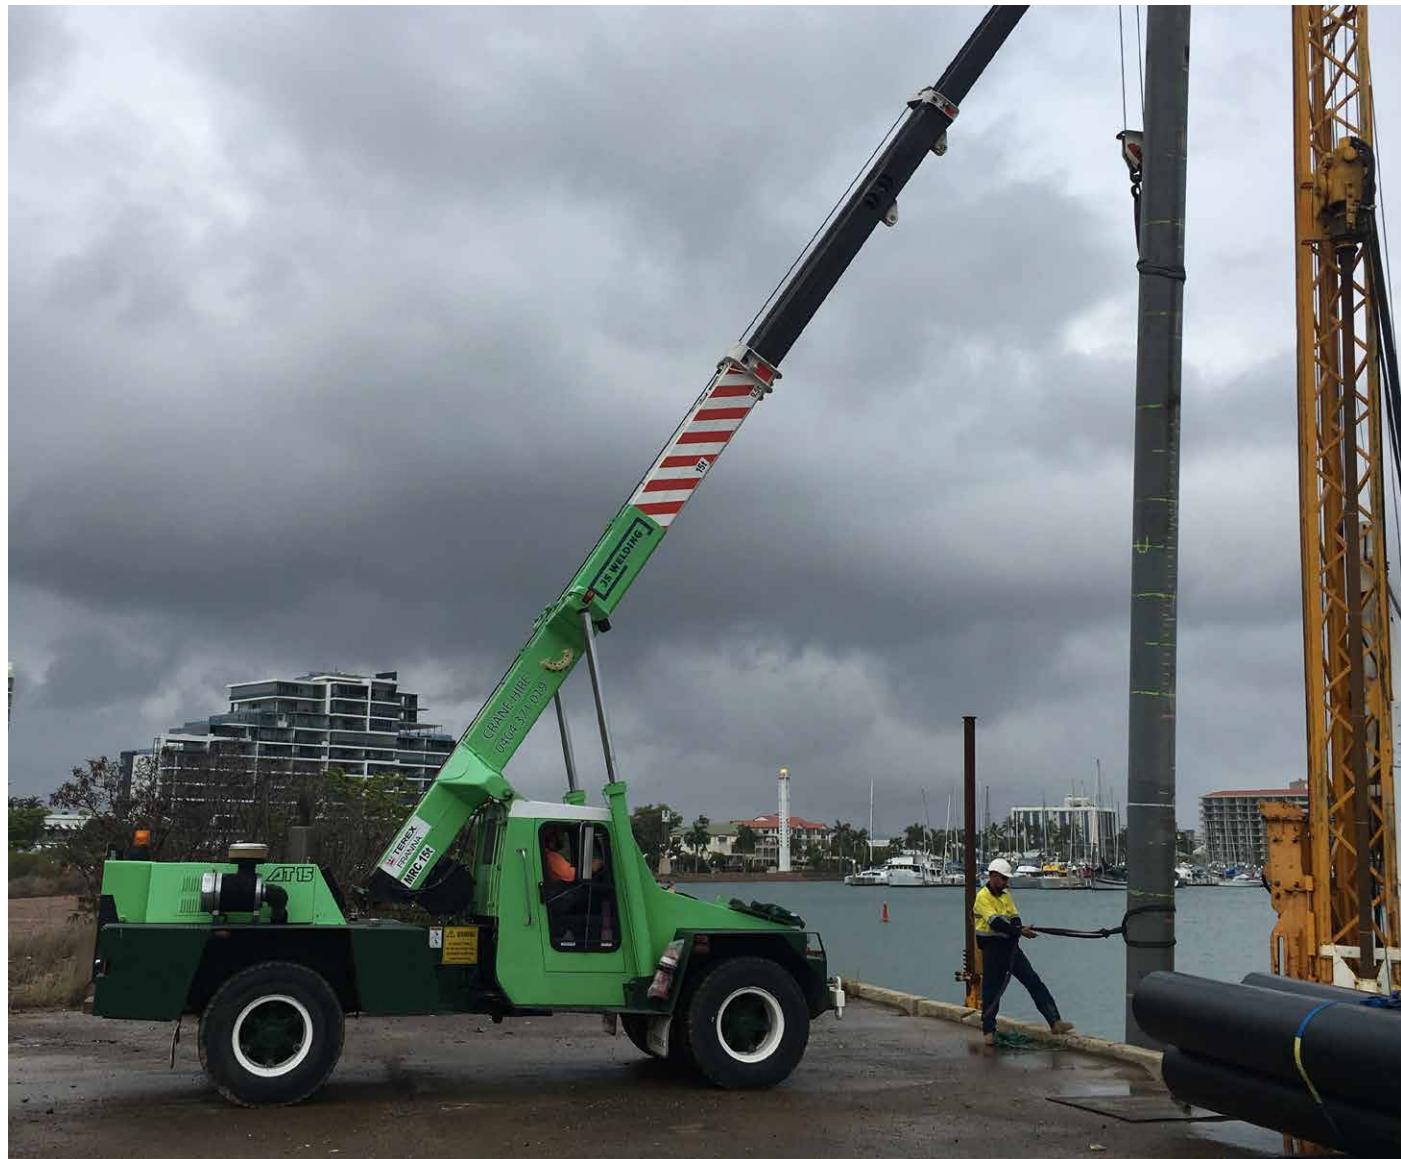

SAFETY FIRST

At JS Welding Services safety always comes first. This is achieved through the appointment of a dedicated Safety Officer based at our workshop. We have implemented a Health and Safety Policy, and Health and Safety Management System. This comprehensive approach to safety and quality ensures all legislative obligations and requirements of AS/NZS 4801:2001 Health and Safety Management Standard are met.

SKILLED PERSONNEL

JS Welding Services is wholly owned and operated by its hands-on director who takes an active and leading role in each project. This makes us more agile, flexible and responsive to our clients' needs. We have an excellent group of highly experienced senior staff, with more than 10% of our production staff in their 4th and 5th decade of boiler making. This experience brings a wealth of knowledge and advanced skills to our workshop and project sites.

JS Welding Services has access to reliable and trusted work crews who can assist with the erection of structural steel on project sites. These staff are highly competent and have travelled throughout Queensland over the past decade installing projects that have been fabricated in the workshop in Townsville.

Our People, Resources and Approach to Business

JS WELDING
SERVICES

EMPLOYMENT OPPORTUNITIES

JS Welding Services is a proudly local firm, passionate about upskilling young people and creating a fairer and more diverse work environment for people from all backgrounds and abilities. This is demonstrated through our inclusive employment program, which offers employment and apprenticeships to people of all backgrounds. Local indigenous tradespeople and apprentices are a very important part of our team. Our apprenticeship program provides yearly opportunities to several young people who want to be a part of the construction industry. Full time employment is offered to all upon completion of their training.

PROUD LOCALS

As proud North Queenslanders we are also delighted to be major sponsors of the JCU Saints Rugby League Club, the Blackstars Basketball Club, and provide support to Townsville Game Fishing Club and National Breast Cancer Foundation.

"As a privately owned business, we have always been proud of our support of locally owned Australian manufacturers, and our work with JS Welding Services has seen a very positive growth for this company. Our operation in Townsville would not be as strong as it is today if it were not for Jason and his team. Our employment level has risen over the last 10 years, and I put a lot of our growth down to the business relationship we have with Jason. Collectively and as local companies we have created a great supply chain to Far North Queensland."

Chris Lane, Director, Metalrig Pty Ltd

Area of Operation

SERVICING **QUEENSLAND** AND BEYOND

Since its inception in Townsville in 2010, *JS Welding Services* has expanded its reach across regional and rural Queensland and has successfully completed projects from Weipa to Brisbane, and even as far south as Melbourne.

With a growing team and increased resources, servicing clients interstate is no barrier.
